Service Department  
And the  
Adams County  
Sheriff's Department

*...a collaborative effort to help  
keep your loved ones safe...*

# Project Lifesaver

**Project Lifesaver is a collaborative effort sponsored by the Adams County Health & Human Services Department and the Adams County Sheriff's Department**

This program is offered to Adams County residents who are affected by a diagnosed condition which may cause them to wander away from their home. It is designed to assist in the tracking and locating of such persons in the event they were to leave their home unsupervised.

*The goal of Project Lifesaver is to ensure that no person in this program will become a victim and that they will be returned safely to their home and family.*

## How does it work?

The Project Lifesaver System works by utilizing a personalized radio transmitter worn by identified persons. The transmitter bracelet gives off an audible signal which can be identified should they wander from home. Specially trained law enforcement personnel utilize a mobile locator tracking device, which is capable of tracking a signal up to a mile by ground and five to nine miles by air.

## Benefits

With the ability of the Project Lifesaver tracking device, a search can be successfully concluded in less than an hour, at minimum cost to the community. More importantly than the financial savings that Project Lifesaver brings to the community, it offers the law enforcement agency the ability to quickly and safely bring a wandering person home. Families and caregivers live with an enormous amount of stress when their loved one suffers from serious condition, and the ability to quickly find them should they accidentally wander from home brings a comfort that no other method can provide.

## Process:

- **An initial assessment will be done to determine eligibility.**
- **Once approved, the client will be set up with the Lifesaver bracelet.**
- **Staff will make monthly visits to ensure equipment is working properly.**

## Family Responsibility:

- ❖ **Daily light maintenance of equipment**
- ❖ **Possible monthly payments**

**“Project Lifesaver protects wandering patients and gives Peace of Mind to Families, Caregivers and Communities.”**
