

PRACTICAL CENTS REUSE PROJECT

*Is your trash
someone
else's treasure?*

*Many items that you
consider trash can be
reused by others.*

*Your gently used items
are needed by others in
Adams County.*

PRACTICAL CENTS

Help us..... help others!

When you use the County Landfill & Recycling Center we hope that you will take the time to sort your materials and gently set good used items inside the marked trailer.

Your donated items will be used by others in the community who need a little assistance, especially in these hard economic times and disaster assistance.

If you would like a receipt for your donated items we will provide that to you.

Once your trash is put into our garbage containers they are taken to the landfill, destroyed, and can never be used again.

Please help keep these items out of our landfill and help those in need at the same time.

THANK YOU!

ACCEPTED ITEMS

▪	Toys —Good used toys, must not be broken. All pieces & parts should be included.
▪	Tools — Hand tools, power tools in good working order . Garden tools, construction tools, etc.
▪	Furniture & Housewares —all types of furniture. We can fix small repairs & clean upholstery. Towels, kitchenware, etc.

▪	Bedding -all sizes in good condition accepted. Bed Frames —all sizes
▪	Clothing —Good used clothing accepted.
▪	Baby Furniture & Accessories . Any items for infants and toddlers greatly needed.

HIERARCHY OF WASTE DISPOSAL OPTIONS

	REDUCE -the amount of waste material you produce by buying smart. Buy in bulk.
	REUSE - what you can yourself or share with friends and neighbors.
	RECYCLE -the required items. It is mandatory in Wisconsin and Adams County! Recycle tin & aluminum cans, plastic bottles & jugs # 1 & #2, glass bottles & jugs, magazines, newspapers, junk mail, corrugated cardboard. Also, appliances, tires, waste oil & filters, anti-freeze, fluorescent bulbs, sharps, batteries, brush and yard waste are all banned from landfills.
	COMPOST -yard and garden trimmings and add to soil or around plants. Brush can be chipped and used as mulch or decorative bark.
	LANDFILL -what little material is left. After you've reduced, reused, recycled and composted your materials, there is actually very little left. Landfilling is preferred over the burn barrel because when you burn you release toxins and poisons into the air that we breath. The ashes are contaminated, and, if dumped, will contaminate the groundwater.
	NO BURN BARRELS PLEASE! - There is no need to burn anything as there are other safe and legal options. Illegal burning causes most of our forest fires and you are responsible for any damages caused from a fire that you start.
